---

TECHNICAL PROJECTS

Personal Website (in progress)
A website to showcase myself as a developer, as a musician, and as a photographer

- Implemented React's single-page app capabilities for a smooth user experience
- Incorporated the Spotify API to showcase personal music projects
- Took advantage of the react-spring library for smooth animations and event handling

BarHopper
Silly JavaScript game, the more beverages you consume, the wonkier the controls get!

- Utilized HTML DOM manipulation and CSS for easy and fun user experience
- Brought in jQuery and AJAX for smooth event handling and animation
- Composed original music and sound FX

Playlist Generator (in progress)
Generates music playlists based on the User's generated and selected tags using Java, Spring Tool Suite and SQL

- Created Login and Registration using BCrypt for user security
- Leveraged Bootstrap for a clean and colorful UI
- Incorporated the Spotify API to make use of the generated playlist

PROFESSIONAL EXPERIENCE

Managing Director | *Orchestra Seattle and Seattle Chamber Singers* | Seattle, WA   2018-present

- Managed the Front of House at performances, including a team of 10-15 volunteers serving around 350 patrons
- Assisted with the procurement, auction and distribution of $50,000 worth of donated items for the annual gala
- Coordinated regular mailings to over 1200 supporters

Event Manager | *Classical KING FM 98.1* | Seattle, WA   2014-2015

- Managed a team of 10 volunteers for various events and office related tasks
- Coordinated a regular pop-up table at over 100 local events, including transportation and setup of materials
- Liaised with local arts organizations for on-air promotional spots and verified FCC compliance

EDUCATION

Coding Dojo | *Full-Stack Developer Certificate* | Seattle, WA   2021
- *Immersive Full-Stack Training Program in Python, Java and MERN*

University of Washington | *Bachelor of Arts in Music* | Seattle, WA   2018
